Size	S	M	L	XL
Pro Fit	6-6 3/4	6 7/8-7 1/8	7 1/4-7 3/8	7 1/2-7 5/8

How to Measure

Shoe Size

1. Place your foot on a piece of paper
2. Trace around your foot
3. With a ruler, measure the two longest points in your tracing to determine your foot length.
4. Reduce your foot length measurement by 1/5 inch
5. Correspond this number to the size in the chart to determine your shoe size.

Chest

Put your arms to the side, measure around your upper body right under your armpits over the fullest part of your chest.

Waist

Measure your waist at the height you normally wear your pants.

Head

Using measuring tape, start one inch above your eye brows and go around the widest part of your head. Measure in inches.
